

# TEMPORARY ACCESS DISRUPTION

**29 April 2025**

Dear Members, please be informed that our contractor will be hoisting the air-conditioning system to the rooftop of the new wing. During this time, a lorry crane will be stationed near the main entrance by the guardhouse on **29 April 2025, Tuesday from 9AM to 12PM.**

As a result, the road in this area will be partially closed in the morning to facilitate the works safely. We kindly advise all drivers and pedestrians to use alternative access routes where possible and to follow on-site directional signage.

Thank you for your understanding and cooperation.

The Management
